kculp@leta911.org

**RELEASE DATE:**

July 10, 2023

**Larimer County CO** – On behalf of Larimer Emergency Telephone Authority (LETA911) we are excited to announce our additional emergency alert tool. LETA911 provides the NOCOALERT Emergency Alert System which services all communities in Larimer and Jackson Counties as well as the Windsor Severance Fire Protection District in Weld County.

LETA911 is partnering with Deaf Link to provide the Accessible Hazard Alert System (AHAS) which will send accessible alert messages to registered residents who are Deaf, Blind, Hard of Hearing, or Deaf/Blind. The NOCOALERT system will send accessible alert messages to internet and video capable devices such as computers, mobile phones, and tablets. AHAS alerts are also Braille reader accessible.

Individuals wishing to receive accessible emergency alerts will register on the NOCOALERT website by selecting the option Deaf Link Registration. Once the individual completes the accessible registration, they will be notified by the NOCOALERT System with an accessible alert for all imminent threat to life alerts that impact communities served by LETA911.

Visit [Home | Larimer Emergency Telephone Authority \(ahasalerts.com\)](https://www.ahasalerts.com) for more information and a demonstration of a translated test alert.
